Art Unit: 1617

The election of species requirement is withdrawn.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 10-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Bar-Shalom et al.

Bar-Shalom et al teach an extruded vehicle with post processing comprising PEG 400 monostearate and an active (example 4 column 15). Polyethylene glycol is specified as a matrix polymer (column 6 lines 12-27). Polymers with melting points as low as 20 degrees C are specified (column 6 lines 29-38).

Claims 7-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-6, 10-14 are rejected.
